H-2 **Dexterous hand** Data Gloves

·6DoF for Dexterous Hand

Specifically designed for 6DoF dexterous hands, compatible with over 90% of mass-produced 6DoF dexterous hands on the market.

·Lightweight & breathable

The glove material offers excellent hand conformity and enhanced breathability, making it lightweight, comfortable to wear, and easy to use.

·Detachable and washable

The finger sensors and the hand-back motion sensing module can be detached from the glove, allowing the fabric to be washable.

·high-precision motion tracking

The high-precision posture sensor module on the back of the hand can accurately detect hand posture data, providing comprehensive hand motion data acquisition capability.
